

Early Years Inspiration

Early Years Inspiration

A

Wobbly Mirror Play Panel

FIWAVY

A playful, wavy mirror creates fun and silly reflections, where kids can move around to make their reflections twist and wobble. It's a delightful, interactive experience that sparks laughter and creativity as children explore different angles.

B

Convex Mirror Play Panel

FICONVEXL

A convex mirror adds a fun twist to the playground, distorting reflections into playful, stretched shapes. Children can move around and watch their reflection change, offering a unique and entertaining way to explore perspectives and have fun.

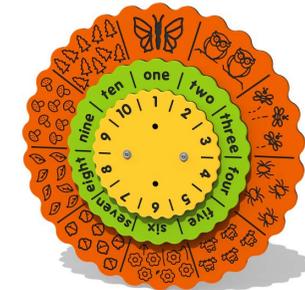

C

Concentric Counting Insert

FICSCTIN

Make learning fun and engaging outdoors with an exciting way to count! Kids can turn the discs to match the numbers, symbols, and words, while vibrant, high-contrast colours help guide them. Designed to be accessible, it's a great tool for all children, including those with visual impairments, turning counting into an enjoyable and interactive experience. Easy to install to panels and structures.

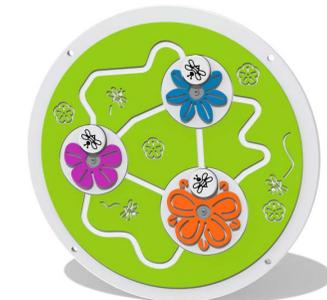

D

Flower Explorer Insert

FIEXFLOWERIN

A super fun, interactive insert packed with exciting activities! Kids will love guiding the exploring insect discs through t-slot channels, making their way from one flower to the next. With four rotating flowers to align, children can slide the insects into place and watch them spin as they navigate to the next flower. Easy to install to panels and structures.

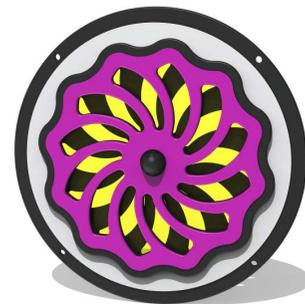

E

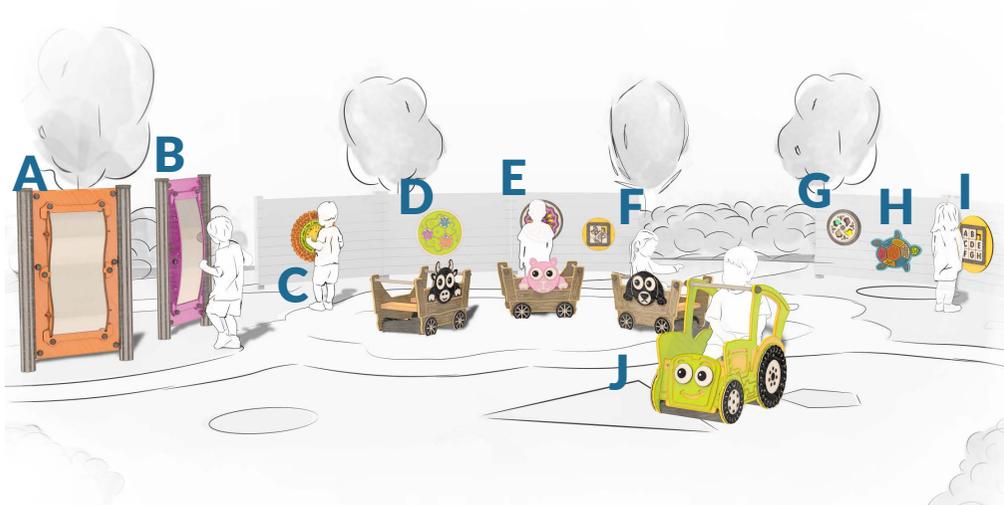

Spiral Spin Insert

FISPSPIN

Spinning the disc is an exhilarating experience, as it creates contrasting spiral patterns that are as mesmerising as they are fun. This insert is a captivating addition to any play space that is guaranteed to keep children engaged and entertained. Easy to install to panels and structures.

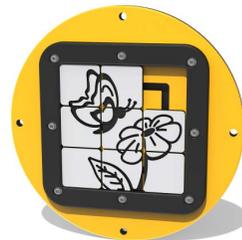

Early Years Inspiration

F Mini Tile Slide Butterfly Insert

FITSBFLYSMIN

Children can move the tile slides to create a butterfly themed puzzle. Encouraging problem-solving in a fun and playful manner. Easy to install to panels and structures.

G Mini Colour Wheel Kaleidoscope Insert

FICWKSMIN

Stimulate the visual senses with this simple and beautiful mini insert. This product supports visual stimulation and inclusive play whilst learning about colours and the effect of mixing them.

H Mini Sensory Texture Turtle Insert

FITURTEXSMIN

Designed to stimulate the touch and sight senses with different shapes textures. A compact, fun Insert that will keep children of all abilities engaged. Can be mounted to any structure.

I Tile Slide Number Insert

FITSNUMIN

Make learning enjoyable on the playground by arranging the number tiles in the correct sequence, turning math into a fun and interactive activity for children. These tiles can be easily attached to structures like fences and walls, bringing an engaging learning experience to any play space.

J Toby the Tractor and Trailer Set

FIEYFMSET

Young children can pretend to drive the tractor with friends while they explore the farm animal carriages. Each piece, including Toby the Tractor and the Trailers, is available for separate purchase, allowing the set to be customised to meet needs.
